

Brussels, 31st August 2018

We would like to update you about the progress of the PanAfGeo project and the substantial visibility it is providing EuroGeoSurveys and its members.

- For those of you who do not follow the project, **the website has been redesigned** and updated with all recent news and events: <http://panafgeo.eurogeosurveys.org/>. Several updates have been posted on our Twitter, Facebook and LinkedIn pages. By following **@PanAfGeo** you'll always receive the latest news.
- PanAfGeo will be participating in the **UNDP International Conference on Artisanal and Small-scale Mining & Quarrying, to be held in Livingstone, Zambia, from 11-13 September 2018**. The participation of PanAfGeo ensures a high visibility for EGS and EGS members amongst partner organisations. With the presence of Hon. Richard Musukwa, Minister of Mines and Minerals Development, Zambia there would be a launch of PanAfGeo' s Artisanal Small-Scale Mining handbook.

- PanAfGeo will also be present at the next **African Union Ministerial Summit in Addis Ababa, Ethiopia, on 15 October 2018** to ensure continuous high-level visibility and nourish our contacts with partners, stakeholders and Advisory Board members.
- With these continuous developments, and the positive results of the first (almost) two years, we **start hoping that the second phase in training and developing African Geological Surveys will be possible** in order to complete the good work we've all started.
