

Brussels, 16th November 2018

We would like to update you about the progress of the PanAfGeo project and the substantial visibility it is providing EuroGeoSurveys and its members.

The Memorandum of understanding signed between the Organisation of African Geological Surveys (OAGS) and the EuroGeoSurveys (EGS).

Recognizing that the mandate is aiming to foster a mutually supportive relationship which is essential for the establishment of geoscientific and technical cooperation.

The mandate also recognized to further strengthen the cooperation to promote investment and establishment of greater public and government understanding of the strategic importance and offerings of Geological surveys and otherwise be generally mutually beneficial to the parties.
